

# PRECEPTOR WORKSHOP

**\*\* In Person \*\*** London Ontario  
April 22<sup>nd</sup>, 1300

## The Difficult Learning Situation

Precepting can be very challenging, especially when the student is struggling. Midwifery students may have difficulty meeting course expectations because of problems with knowledge, attitudes or skills. Early identification is important, and a structured intervention has been found to help 90% of struggling students succeed. This workshop will address the common reasons students struggle and how to set up a remediation plan with student, tutor and preceptor involvement.

**Forest City Midwifery C.A.R.E. Unit 101, 345 Westminster Ave, London N6C4V3**

Space is limited.
